

Clean Hands are Lead Smart Hands!

Here's what you have to do to have lead smart hands!

1. Rinse your hands under warm running water!
2. Lather your hands with soap to loosen dirt & bacteria!
3. Rub your hands together; it helps to get rid of the dirt!
4. Rub soap between your fingers & under your nails!
5. Rinse off all the dirt & soap under running water!
6. Dry your hands with a paper towel & throw it away!
